Software Innovation & Business Partnership Proposal

Presented by Mobashir Ahmed Nasrullah

Founder & Software Strategist

Vision: Transforming Ideas into Scalable Digital Businesses

Slide 2: Executive Summary

Who We Are

We are building a next-generation software company focused on two high-growth business models:

- **Custom Software Development Services** for businesses and enterprises.
- **Product-Based Software Solutions** built from our own innovative ideas.

Our goal is to develop scalable, technology-driven businesses that solve real-world problems while creating recurring revenue streams.

Slide 3: Our Business Model

Dual Revenue Strategy

1. Software Development Services

- Custom web, mobile, ERP, and enterprise solutions.
- End-to-end development for clients.
- B2B and B2C software solutions.

2. Proprietary Software Products

- Develop unique software platforms.
- License, sell, or partner with businesses.
- Build long-term intellectual property.

3. Subscription Revenue

- SaaS-based recurring monthly or yearly income.
 - Scalable and predictable cash flow.
-

Slide 4: Why This Model Works

Sustainable Growth Engine

- Immediate revenue through client projects.
 - Long-term wealth through proprietary products.
 - Recurring income via subscription models.
 - Highly scalable with low marginal costs.
 - Strong valuation potential.
-

Slide 5: Current Progress

Execution Already Underway

- Multiple software products currently under development.
- Proven product roadmap and execution strategy.
- Dedicated focus on high-demand, scalable industries.
- Strong technical foundation already established.

Active Development Projects

- EduStream ERP
 - GKHIDMAH Super Platform
 - GORUN On-Demand Expert Platform
 - GNEXT / GLOOK Commerce Ecosystem
-

Slide 6: Flagship Product

EduStream ERP

Smart ERP for Study Abroad Agencies

A complete ERP solution designed specifically for study abroad consultancies.

Core Features

- Student Management
 - Lead Tracking
 - Application Processing
 - Document Management
 - University Communication
 - Agent Management
 - Financial Reporting
 - Team Collaboration
 - Compliance Workflow
-

Slide 7: EduStream Market Opportunity

Massive Industry Demand

- Thousands of study abroad agencies globally.
- High operational complexity.
- Strong need for automation.
- Subscription-ready B2B market.

Revenue Model

- Monthly Subscription
 - Annual Enterprise Licensing
 - Setup & Customization Fees
 - Premium Support Packages
-

Slide 8: Product Portfolio

GKHIDMAH – All-in-One Daily Needs Platform

A revolutionary super-app designed to fulfill all daily consumer needs through a single seamless ordering experience.

Unique Value Proposition

- One order for multiple categories.
- Grocery, medicine, fashion, essentials, and more.
- Simplified ordering workflow.
- Single delivery fulfillment.

Competitive Advantage

- Maximum convenience.
 - Reduced delivery friction.
 - Superior customer experience.
-

Slide 9: GKHIDMAH Core Innovation

Unified Commerce Experience

Customers simply:

1. Enter the platform.
2. Create a need-based shopping list.
3. Select desired categories.
4. Receive everything in one delivery.

This dramatically improves convenience, retention, and order frequency.

Slide 10: GORUN

B2B Expert Outsourcing & Staff Management Platform

A corporate-grade on-demand workforce management solution.

Primary Focus

- Corporate staff outsourcing.
 - Temporary workforce deployment.
 - Real-time task monitoring.
 - Secure attendance verification.
-

Slide 11: GORUN Key Features

Enterprise Workforce Automation

- Smart job placement engine.
 - Geo-fenced attendance system.
 - QR-based secure check-in.
 - Live task tracking.
 - Automated billing and payroll.
 - Commission management.
 - Staff wallet system.
 - KYC verification.
-

Slide 12: GNEXT / GLOOK

Next-Generation Commerce Ecosystem

A modern digital marketplace enhanced with AI and AR technologies.

Standout Features

- Virtual Try-On Experience.
 - AI Body Measurement.
 - AR Product Visualization.
 - Smart Size Recommendation.
 - Online and Offline Merchant Integration.
 - Showroom QR Ordering.
-

Slide 13: GLOOK Categories

Multi-Category Commerce Platform

- Fashion
- Cosmetics
- Eyewear
- Jewelry
- Watches
- Footwear
- Electronics
- Furniture
- Home Decor

- Bags & Accessories
 - Beauty Services
-

Slide 14: Revenue Streams

Multiple Monetization Channels

- Software Development Fees
 - Product Licensing
 - SaaS Subscription Revenue
 - Enterprise Contracts
 - Commission Income
 - Marketplace Fees
 - White-Label Licensing
 - Technical Support Retainers
-

Slide 15: Competitive Advantage

What Makes Us Different

- Strong product innovation capability.
 - Rapid execution speed.
 - Industry-focused solutions.
 - Recurring revenue architecture.
 - Scalable business models.
 - Proprietary technology ownership.
 - Continuous product pipeline.
-

Slide 16: Partnership Opportunity

Proposed Collaboration Structure

We seek a strategic partnership to accelerate growth through:

- Marketing Support
- Brand Positioning
- Business Development
- Workspace & Operational Support
- Network Access
- Strategic Guidance

Slide 17: Our Contribution

What We Bring

- Product Ideation
 - Full Software Development
 - Technical Leadership
 - Product Strategy
 - Innovation Pipeline
 - System Architecture
 - Continuous R&D
-

Slide 18: Partner Benefits

Why Partner With Us

- Access to high-potential software products.
 - Multiple revenue opportunities.
 - Early-stage equity positioning.
 - Recurring subscription income.
 - Strong market scalability.
 - Long-term enterprise value creation.
-

Slide 19: Growth Roadmap

Strategic Expansion Plan

Phase 1

- Launch EduStream ERP.
- Acquire initial B2B clients.

Phase 2

- Expand GORUN and GKHIDMAH.
- Scale subscription base.

Phase 3

- Launch GNEXT/GLOOK ecosystem.
- Regional market expansion.

Phase 4

- International scaling.
 - Investment and enterprise partnerships.
-

Slide 20: Investment & Support Requirements

Immediate Needs

- Marketing Infrastructure
- Business Workspace
- Strategic Partnership
- Sales Collaboration
- Brand Development Support

No immediate salary requirement. Focus is on long-term growth and mutual success.

Slide 21: Why Now

Timing Is Critical

- Market demand is rapidly increasing.
- Technology adoption is accelerating.
- Multiple products are already in development.
- First-mover advantage is available.

This is the ideal time to build together.

Slide 22: Closing Statement

Building the Future Together

I am committed to creating scalable software businesses that deliver real value, sustainable revenue, and long-term market leadership.

With the right strategic partner, we can transform these ideas into industry-leading ventures.

Let's build something extraordinary together.
